

Science

These are the topics you need to revise:

Investigations (variables, equipment, results)

Properties of materials (including insulation)

Forces (friction, magnetism)

Ecosystems (including food chains and webs, mammals, adaptation)

Rock cycle (fossils)

Light and sound

Earth, sun, moon and planets

Cells

Elements, compounds and mixtures

Periodic table

Humans (Teeth, nutrition and diet, muscles, respiratory system)

Circuits (including symbols)

Reactions (chemical and physical)
