STEPS TO ACHIEVE

How did I live a healthy life style?

Where in the universe am I?

How do you use the 'force'?

What came first, the tadpole or the frog or the egg?

Is toothpaste a solid or a liquid?

Y5

Why do we change as we age?

What is fire?

How fast is light?

Where does my food go after I swallow?

Christmas tree lights, parallel or series?

Y6

If a Platypus lays eggs does that make it a bird?

Who was Alfred Wallace?

What does the word 'kinetic' mean?

Which falls faster, a bowling ball or a feather (and does it depend on what planet you are on?)

What is electricity?

How many colours in black felt tip ink?

Y7

How do you treat a bee sting?

Can you out run your own voice?

What is smaller an atom or cell?

Is respiration the same as breathing.

Why are my eyes blue?

Why does a water bottle expand on a plane?

Y8

Can you switch a magnet off?

How does a glow stick work?

Can you dig to Australia?

Are we living through a mass extinction event?

What happens when two waves meet?
